ECOMMERCE PROJECT PROPOSAL

HOOVERS CARDS

SHANDELL PENNEY

WEBD-3011: AGILE FULL STACK WEB DEVELOPMNENT

Diogo Iwasaki

DESCRIPTION

Hoovers Cards opened on October 18, 2023. It is a local game shop that sells cards for games such as Pokémon, Lorcana and Magic the Gathering. They also sell board games, plushies, novelties and memorabilia for anime and other such games and shows. Due to the wide variety of products and games available, the target demographic is all-ages. Pokémon is geared toward younger people between 6-12 years, the toys and plushies also appeal to that group. Magic the Gathering is targeted toward teens up to middle-aged adults, and Lorcana and the board games are quite literally all-ages.

They have one paid employee and a few volunteers. Currently, items are sold in-person and online via the current website created with the Weebly website builder.

For this project to be accepted, the following criteria must be met:

- Full integration with Square for inventory tracking both online and in-store.
- Admin portal
 - Register and delete admin users
 - Delete users
 - Add, edit, delete inventory and sections
 - Title
 - Image
 - Price
